

# User Machines

First go ahead and download the iso from this link

[\[https://info.microsoft.com/ww-landing-windows-10-enterprise.html\]](https://info.microsoft.com/ww-landing-windows-10-enterprise.html)

After registering you will get to this window and then download the iso

Microsoft | Evaluation Center

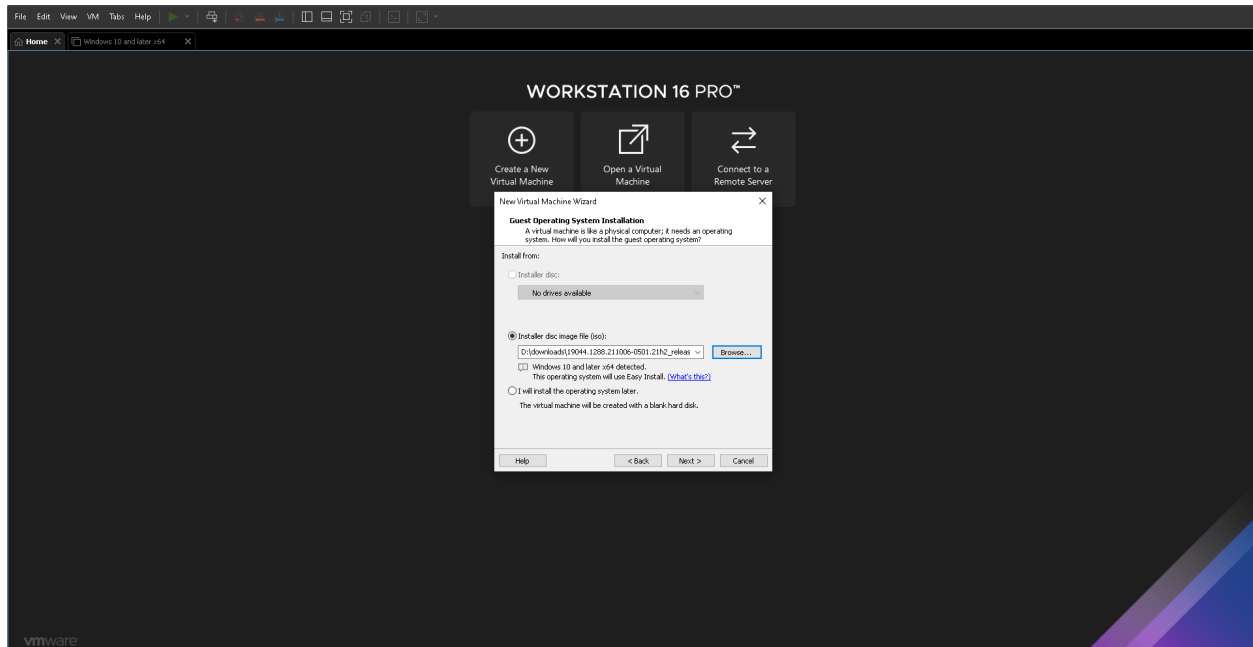

Windows Windows Server SQL Server System Center Microsoft Security Additional products

All Microsoft

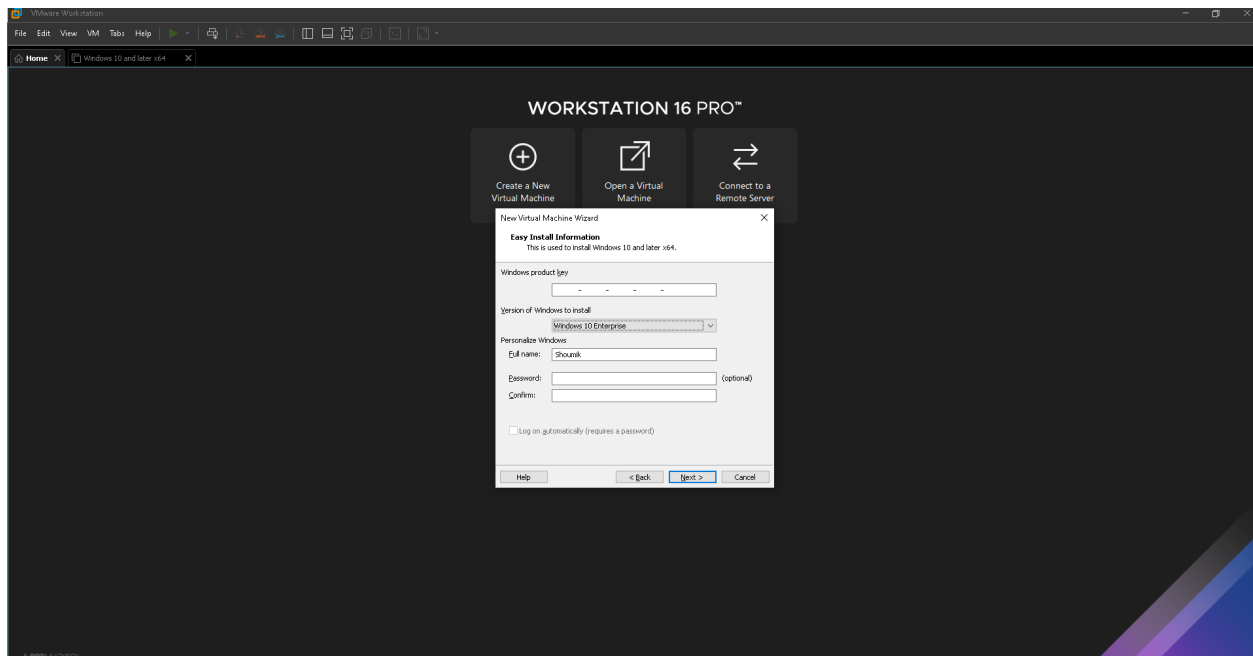

## Please select your Windows 10 Enterprise download

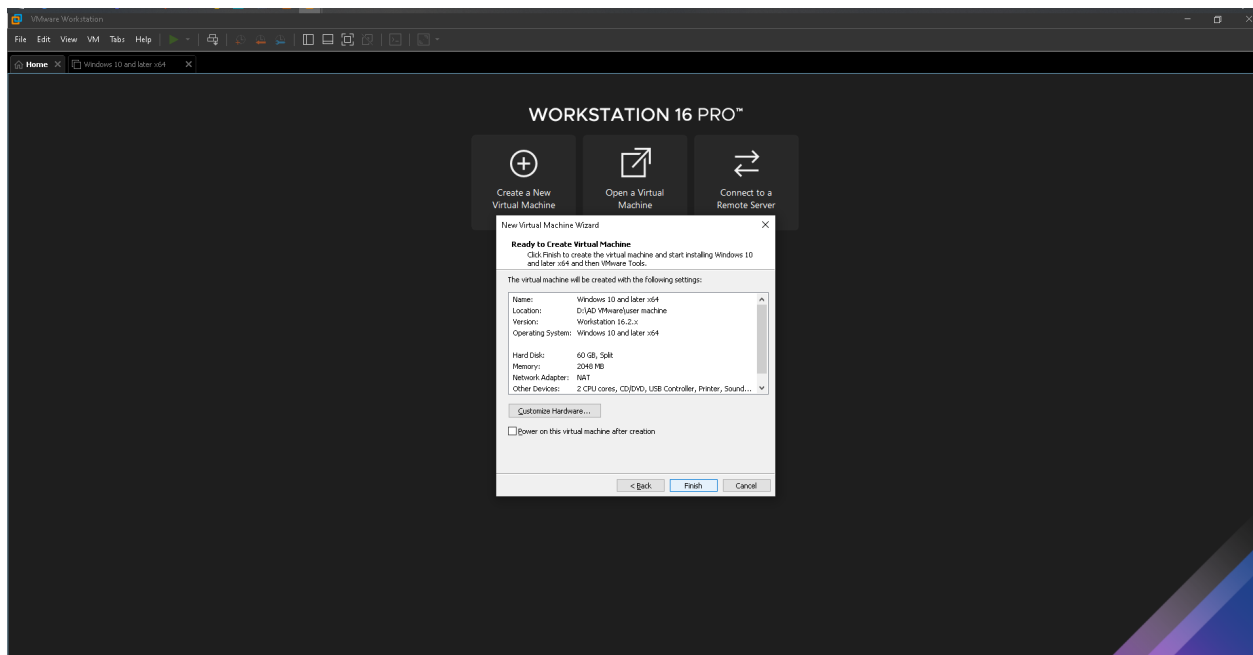

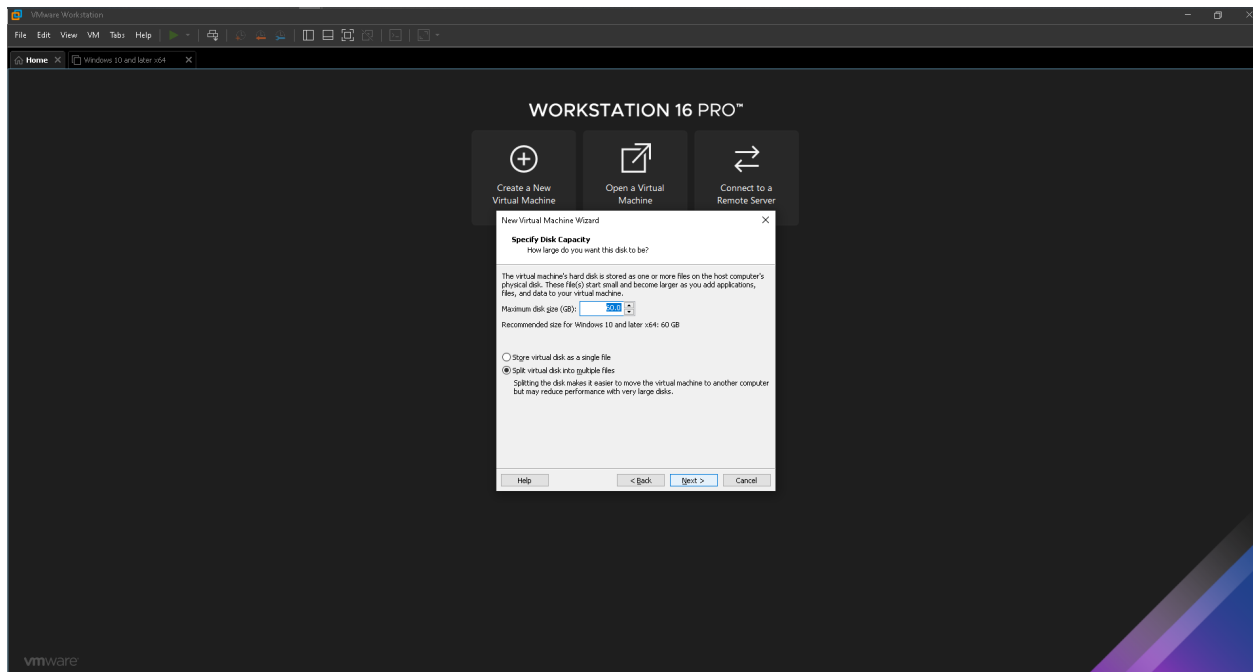

English (United States)	<div>ISO – Enterprise downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>	<div>ISO – Enterprise LTSC downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>
English (Great Britain)	<div>ISO – Enterprise downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>	<div>ISO – Enterprise LTSC downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>
Chinese (Simplified)	<div>ISO – Enterprise downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>	<div>ISO – Enterprise LTSC downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>
Chinese (Traditional)	<div>ISO – Enterprise downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>	<div>ISO – Enterprise LTSC downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>
French	<div>ISO – Enterprise downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>	<div>ISO – Enterprise LTSC downloads</div> <div>32-bit edition &gt; 64-bit edition &gt;</div>

Now go to the VMware workstation and select the Enterprise iso and go ahead as shown in the pictures mentioned below:

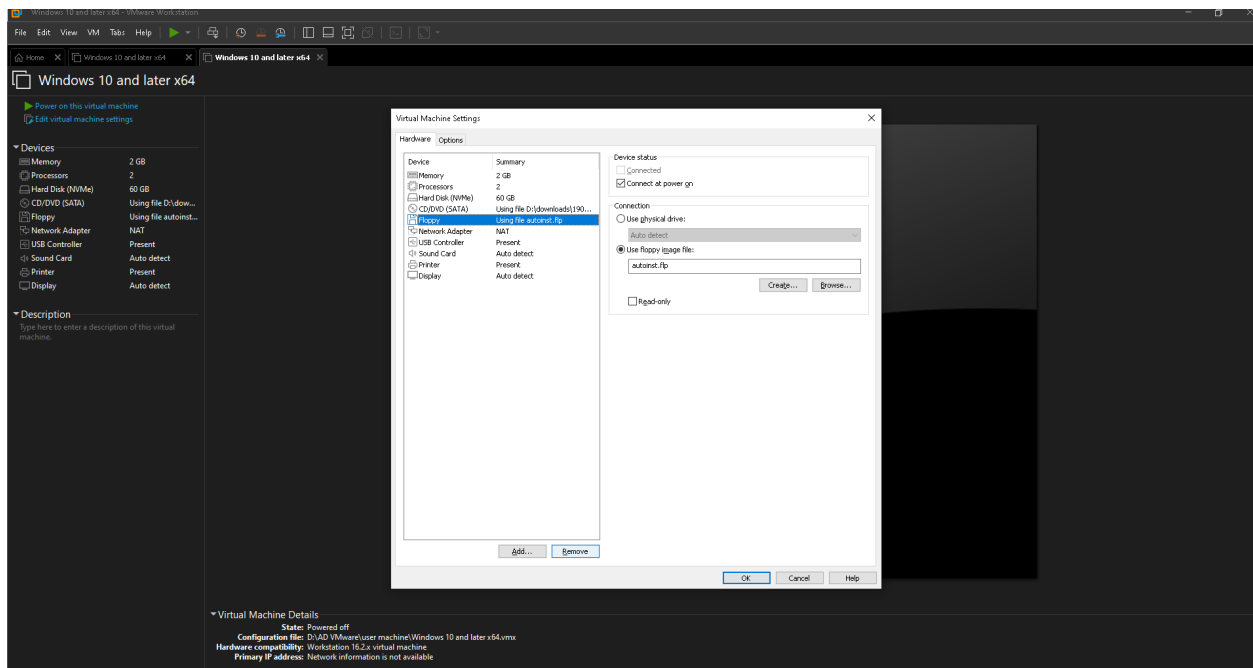

Select Windows 10 Enterprise as version

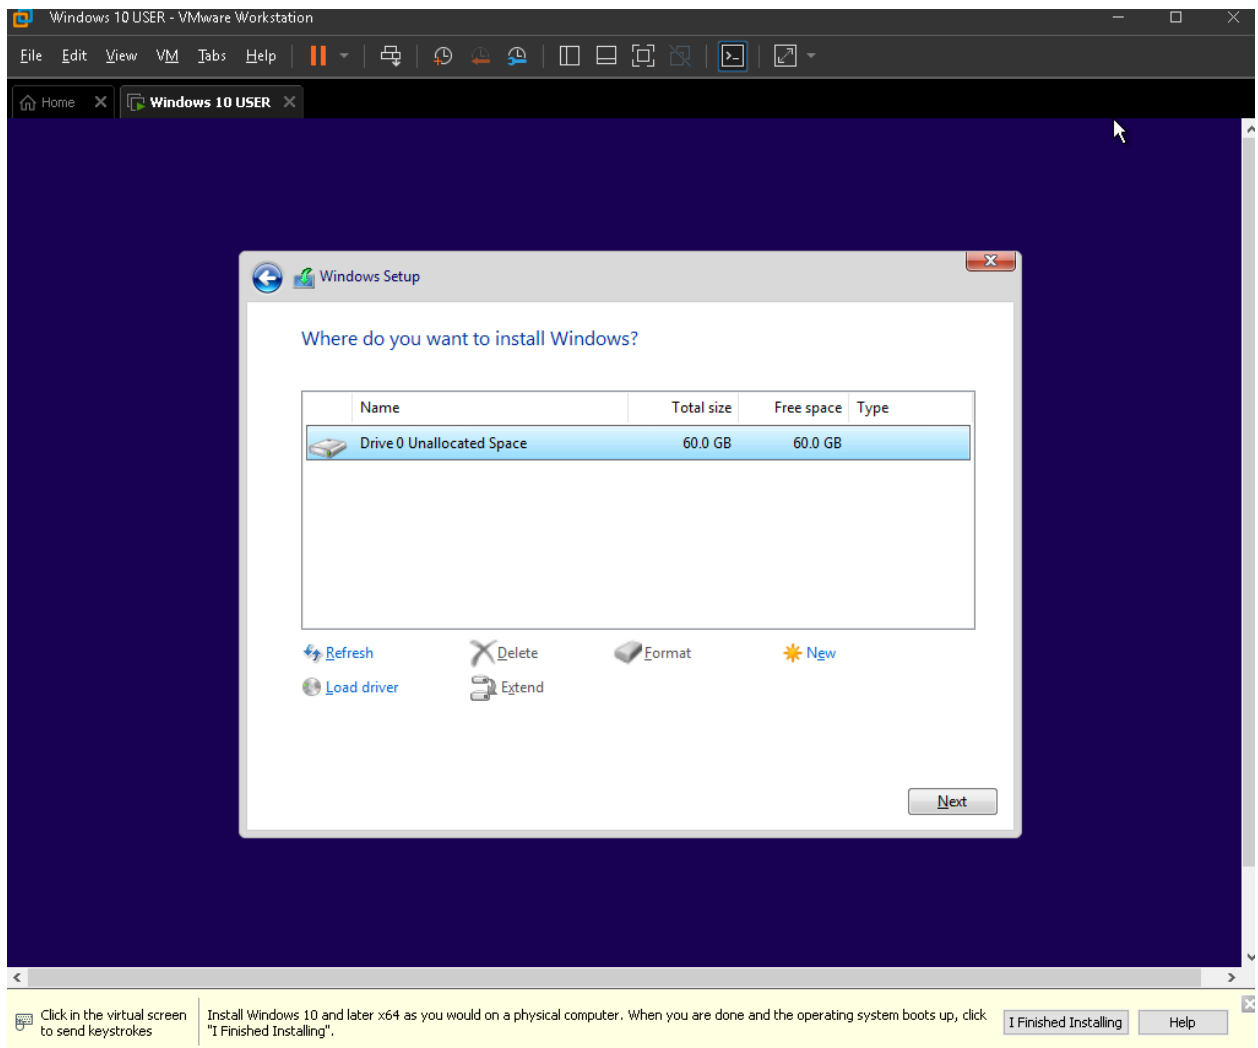

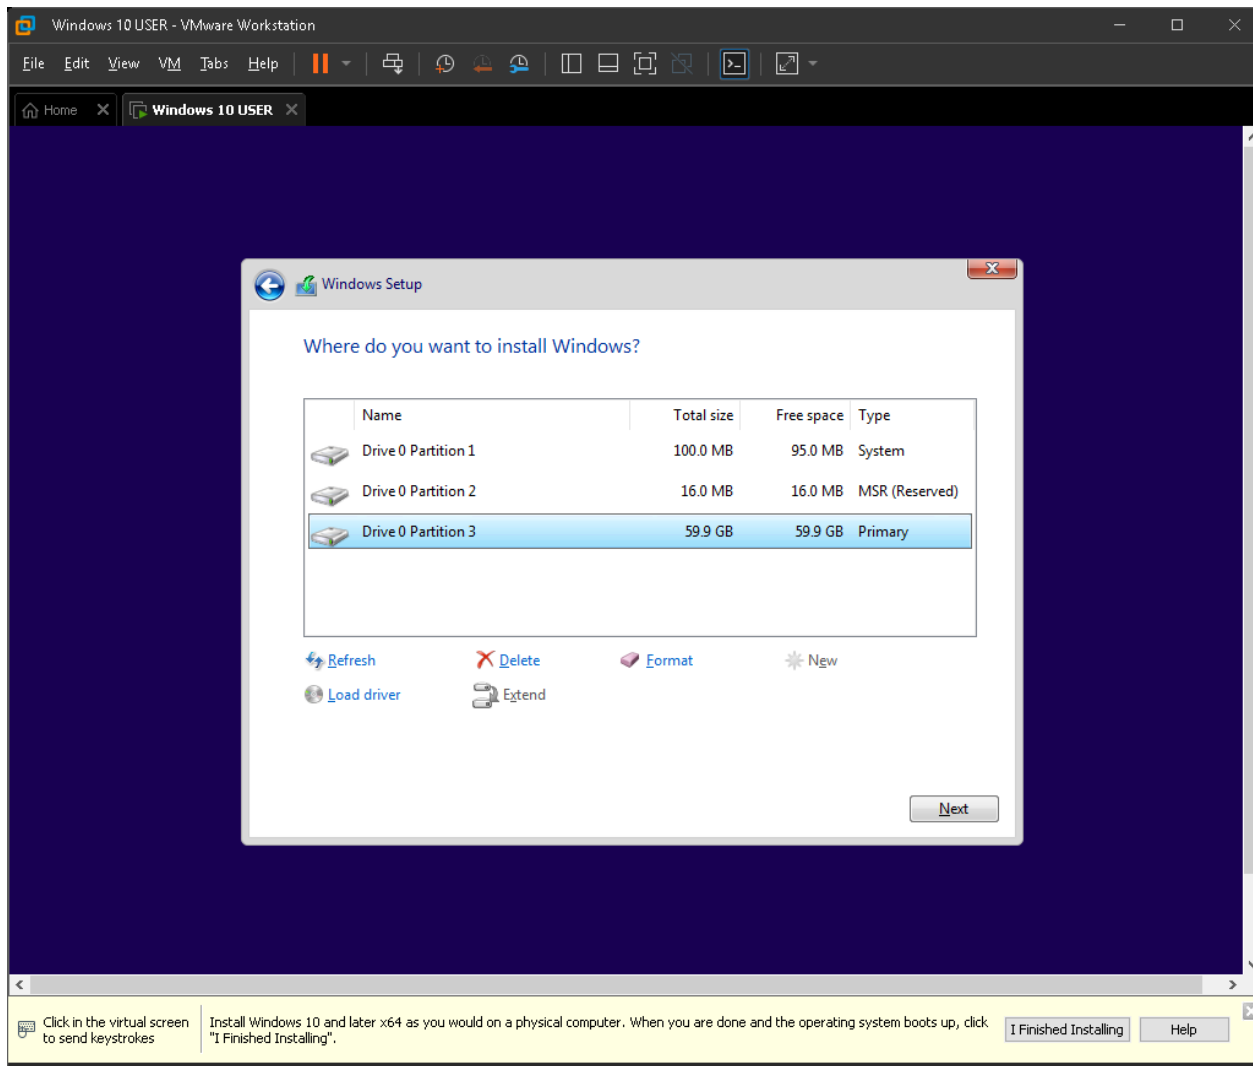

Remove the floppy disk after clicking on to the *edit virtual machine setting*.

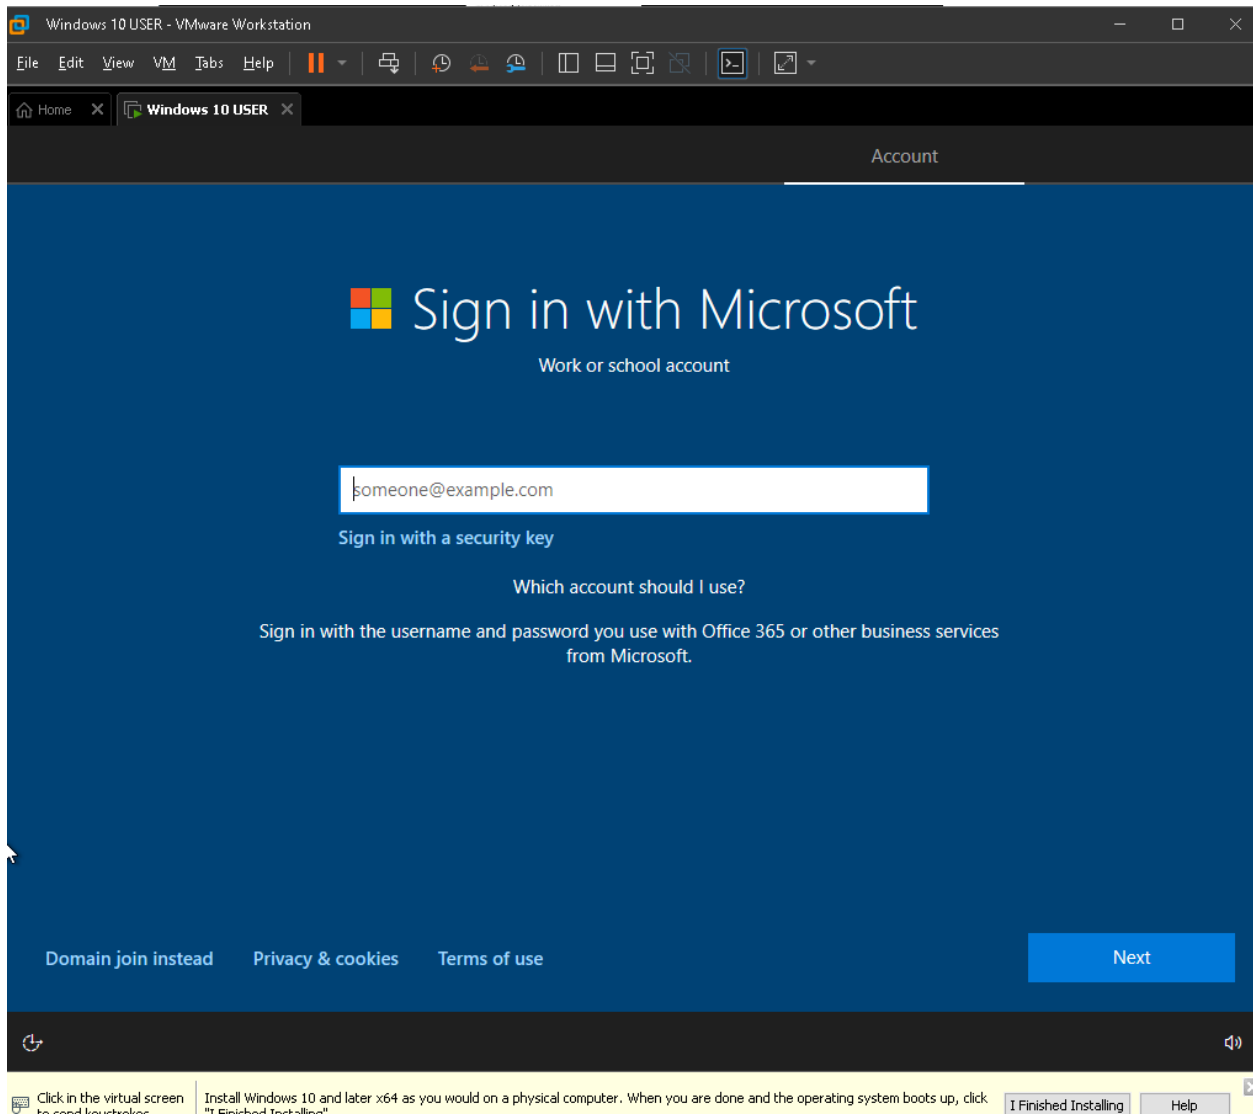

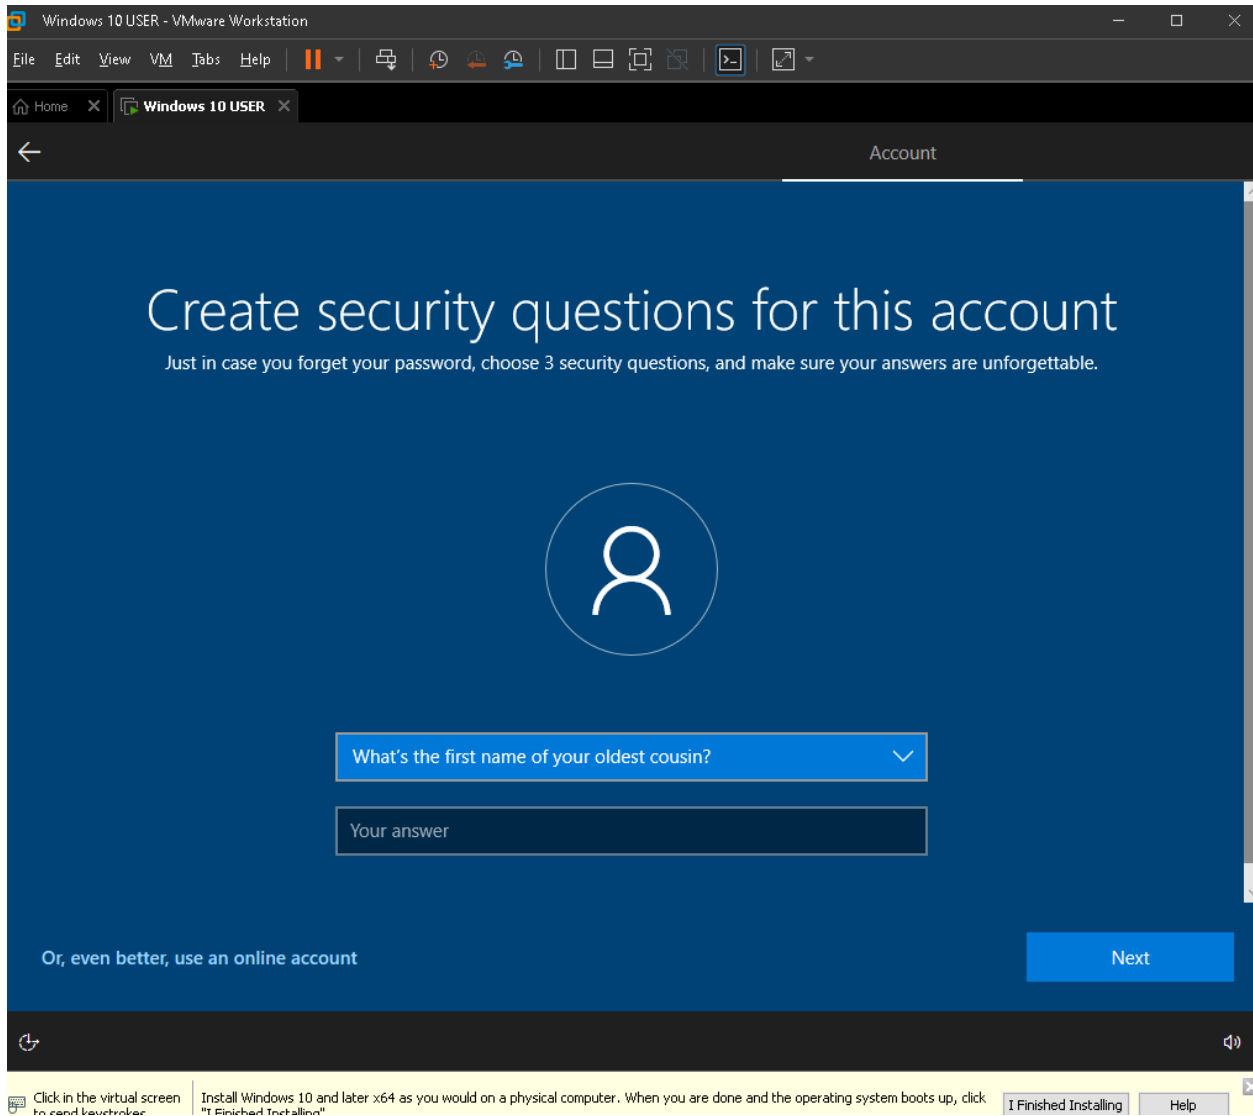

Now power on the virtual machine and do as shown:

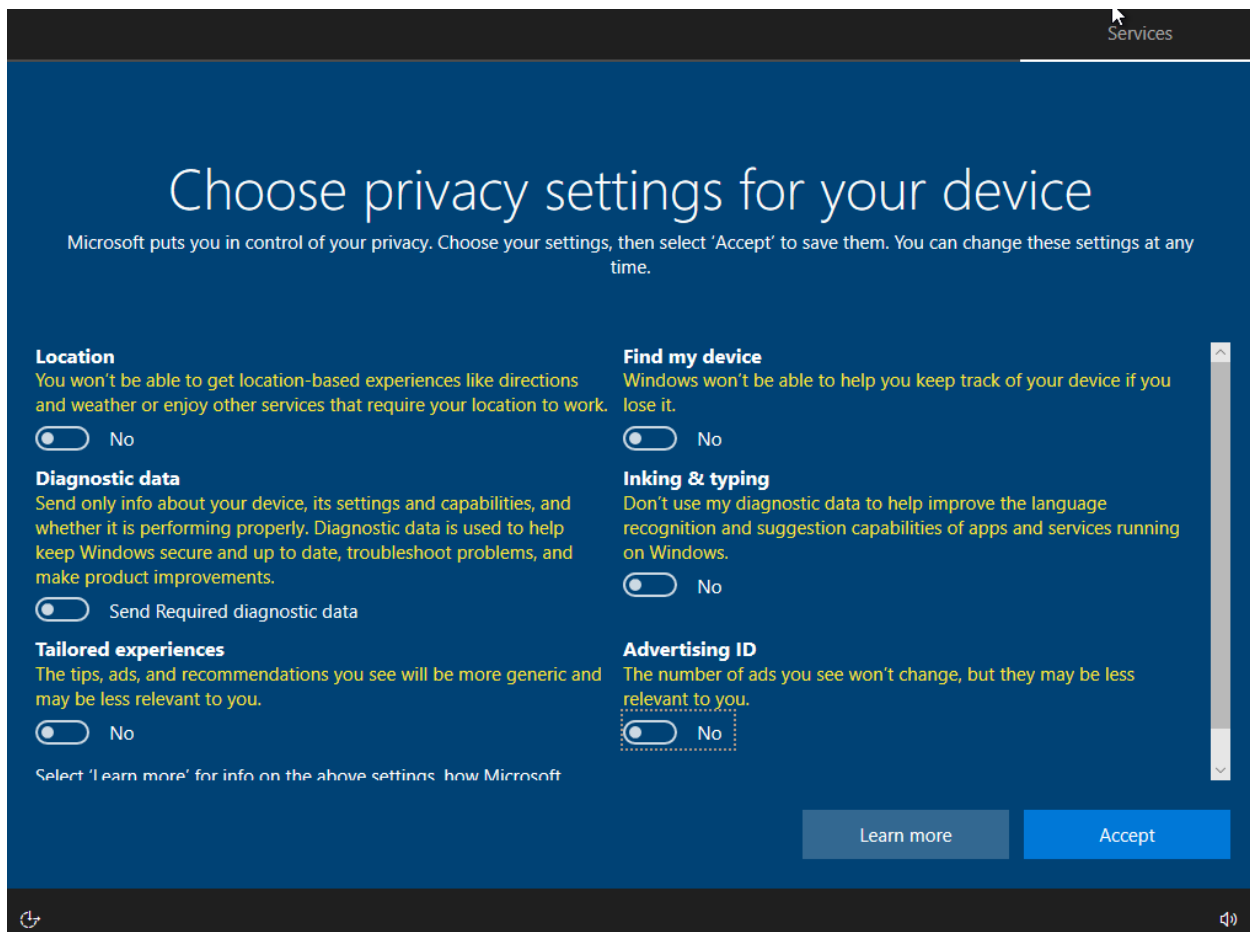

Now click on *Domain join instead* and set username and password according to your choice

Turn off all the unwanted settings and hit accept.

After this your windows will run as user machine.

*Don't forget to change the pc name here as well.*

& make another user machine just like this and get ready to attack.
